Subject index

Absorptiometry, dual X-ray, alcoholism-associated spinal and femoral bone loss in abstinent male alcoholics, as measured by 431
Achilles tendon, xanthoma of (*case report 754*) 471
Achilles tendon xanthomas in familial hypercholesterolemia, magnetic resonance imaging of 453
Acromioclavicular joint, diminished space in, in forced arm adduction as a radiographic sign of degeneration and osteoarthrosis 529
Acromion, normal variant of, simulating grade I acromioclavicular separation (*case report 752*) 419
Acute lymphocytic leukemia (*case report 761*) 546
Adamantinoma, differentiated, adamantinoma of long bones and osteofibrous dysplasia, clinicopathological and immunohistochemical study of 493
Adamantinoma, juxtacortical, of humerus (simulating Ewing tumor) (*case report 727*) 205
Alcoholism-associated spinal and femoral bone loss in abstinent male alcoholics, as measured by dual X-ray absorptiometry 431
Amyloid myopathy, magnetic resonance imaging of 463
Aneurysm, politeal artery (*case report 723*) 190
Aneurysmal bone cyst and angioma of bone, selective arterial embolization in the treatment of 523
Aneurysmal bone cyst and myositis ossificans (*case report 729*) 257
Aneurysmal bone cyst with chondroblastoma of femur (*case report 748*) 403
Aneurysmal bone cysts treated by superselective embolization 167
Angioma of bone and aneurysmal bone cyst, selective arterial embolization in the treatment of 523
Ankylosing spondylitis, transverse fracture with epidural and small paravertebral hematomata, in a patient with (*case report 709*) 61
Announcements 38, 148, 213, 352, 424
Anteversion, increased femoral, patellofemoral characteristics in patients with 311
Arterial embolization, selective, in the treatment of aneurysmal bone cyst and angioma of bone 523
Artery, popliteal, aneurysm (*case report 723*) 190
Arthritis, septic: a rare cause of drooping shoulder 307
Arthritis, tuberculous, of the knee (*case report 739*) 330
Arthrography, hip, lateral approach for 239
Arthrography of hip, urographic opacification following (*case report 742*) 346
Arthrography study and impingement view based on 100 cases: shoulder impingement syndrome 449
Arthropathies, chronic inflammatory, superolateral erosions of the humeral head in 515
Arthroplasty, hip, ultrasonography after 297
Artifact, acoustic edge, usefulness of, in assessment of the Ilizarov corticotomy interval 293
Aspergillosis of the chest wall in an apparently immunocompetent host (*case report 750*) 410
Autografting, vertebral body, and anterior decompression, value of polydirectional tomography in the assessment of the postoperative spine after 359

Baker's cyst, complicated (*case report 731*) 266
Baker's cyst, hemorrhagic, of the right calf (*case report 707*) 52
Benign osteochondromas and exostotic chondrosarcomas: evaluation of cartilage cap thickness by ultrasound 33
Bone and synovium, reaction of, to a silicone implant of the lunate (*case report 719*) 137
Bone changes associated with cystic fibrosis 115
Bone excrescence at the medial base of the distal phalanx of the first toe: normal variant, reactive change or neoplasia? 161
Book reviews 10, 32, 106
Burkitt's lymphoma of talus (*case report 755*) 474

Calcific tendinitis of the origin of the medial and lateral heads of the rectus femoris muscle and the anterior inferior iliac spine (AIIS) (*case report 733*) 271
Calcification, posttraumatic, of the annular ligament of the radius 149

Cartilage cap thickness of benign osteochondromas and exostotic chondrosarcomas, evaluation by ultrasound 33
Chest wall, aspergillosis of, in an apparently immunocompetent host (*case report 750*) 410
Chondroblastoma of the femur with an aneurysmal bone cyst (*case report 748*) 403
Chondromalacia, patellar, signs of, on sagittal T2-weighted magnetic resonance imaging 103
Chondrometaplasia, synovial, of the first costovertebral joint (*case report 692*) 45
Chondromyxoid fibroma of third metatarsal (*case report 713*) 252
Chondromyxoid fibroma of T2 (*case report 741*) 339
Chondrosarcomas, exostotic, and benign osteochondromas: evaluation of cartilage cap thickness by ultrasound 33
Chronic inflammatory arthropathies, superolateral erosions of the humeral head in 515
Chronic multifocal osteomyelitis (*case report 756*) 478
Clinicopathological and immunohistochemical study of osteofibrous dysplasia, differentiated adamantinoma and adamantinoma of long bones 493
Complicated Baker's cyst (*case report 731*) 266
Computed tomography appearance of bone metastases of leiomyosarcoma 445
Computed tomography of talocalcaneal coalition: imaging techniques 353
Contrast-enhanced fat saturation magnetic resonance imaging for studying the pathophysiology of osteonecrosis of the hips 375
Coracoclavicular joints, geography of 225
Cruciate ligament attachments in the knee, prevalence and significance of cyst-like changes in 365
Cryptococcosis (torulosis), primary localized skeletal, of the right tibia at its proximal end (*case report 699*) 117
Cyst, Baker's, hemorrhagic, of the right calf (*case report 707*) 52
Cyst, hemorrhagic synovial, arising from right L2–3 facet joint (*case report 712*) 72
Cystic fibrosis, bone changes associated with 115
Cystic tuberculosis of femur (*case report 737*) 323
Cyst-like changes at the cruciate ligament attachments in the knee, prevalence and significance of 365

Deferoxamine-induced skeletal dysplasia (*case report 744*) 534
Degeneration and osteoarthrosis, diminished space in acromioclavicular joint in forced arm adduction as a radiographic sign of 529
Degenerative disc disease in the lumbar spine: another cause for focally reduced activity on marrow scintigraphy 247
Desmoplastic fibroma (*case report 728*) 388
Diminished space in the acromioclavicular joint in forced arm adduction as a radiographic sign of degeneration and osteoarthrosis 529
Dislocation, inferior radioulnar, with fracture-dislocation of the elbow: a variant of the Essex-Lopresti injury 315

Dislocation, intraarticular, of a sesamoid in the first toe (type I) (*case report 721*) 319
Displacement, posterior, of proximal end of right radius and capitulum with supracondylar fracture causing a displaced fracture rather than fracture dislocation (*case report 725*) 198
Dual X-ray absorptiometry, alcoholism-associated spinal and femoral bone loss in abstinent male alcoholics, as measured by 431
Dysplasia, skeletal, deferoxamine-induced (*case report 744*) 534

Elbow, fracture-dislocation of, with inferior radioulnar dislocation: a variant of the Essex-Lopresti injury 315
Elbow, posterior displacement of proximal end of right radius and capitulum with supracondylar fracture (*case report 725*) 198
Embolization, selective arterial, in the treatment of aneurysmal bone cyst and angioma of bone 523
Embolization, superselective, aneurysmal bone cysts treated by 167
Enchondromatosis of the left femur and hemipelvis (Ollier's disease) (*case report 726*) 201
Eosinophilic granuloma, symmetrical, of the lower extremities (proven) and Erdheim-Chester disease (probable) (*case report 710*) 64
Epidermoid cyst, intraosseous, arising in fifth metacarpal bone (*case report 742*) 343
Epithelioid hemangioendothelioma, malignant, of bone (*case report 759*) 538
Epithelioid hemangioendothelioma of bone 509
Erdheim-Chester disease (probable) and symmetrical eosinophilic granuloma of the lower extremities (proven) (*case report 710*) 64
Erosions, superolateral, of the humeral head in chronic inflammatory arthropathies 515
Essex-Lopresti injury, variant of: fracture-dislocation of the elbow with inferior radioulnar dislocation 315
Ewing tumor, juxtacortical adamantinoma of humerus simulating (*case report 727*) 205
Ewing's sarcoma, treated, plain radiographic predictors of survival in 287
Excrescence, bone, at the medial base of the distal phalanx of the first toe: normal variant, reactive change or neoplasia? 161
Exostotic chondrosarcomas and benign osteochondromas: evaluation of cartilage cap thickness by ultrasound 33

Femoral anteversion, increased, patellofemoral characteristics in patients with 311
Femoral head, pathology of osteonecrosis of. A review of experience at the Hospital for Joint Diseases, New York 229
Femoral stress fractures in children 173

Hematoma, remote and organizing, with foreign body reaction with retained surgical sponge (gossypiboma) (*case report 736*) 466
Hemorrhagic Baker's cyst of the right calf (*case report 707*) 52
Hemorrhagic synovial cyst arising from right L2–3 facet joint (*case report 712*) 72
Hip arthrography, lateral approach for 239
Hip arthrography, urographic opacification following (*case report 742*) 346
Hip arthroplasty, ultrasonography after 297
Humeral head, superolateral erosions of, in chronic inflammatory arthropathies 515
Hypercholerostolemia, familial, magnetic resonance imaging of Achilles tendon xanthomas in 453

Ilizarov corticotomy interval, usefulness of an acoustic edge artifact in assessment of 293
Imaging strategies in the evaluation of soft tissue hemangiomas of the extremities: correlation of the findings of plain radiography CT, MRI and US in 12 histologically proven cases 11
Immunohistochemical and clinicopathological study of osteofibrous dysplasia, differentiated adamantinoma, and adamantinoma of long bones 493
Impingement view and arthrography study based on 100 cases: shoulder impingement syndrome 449
Implant, silicone, of the lunate, reaction of synovium and bone to (*case report 719*) 137
Inflammatory arthropathies, chronic, superolateral erosions of the humeral head in 515
Instability, nontraumatic shoulder, in children, magnetic resonance imaging of 19
Intraarticular dislocation of a sesamoid in the first toe (type I) (*case report 721*) 319
Intraosseous epidermoid cyst arising in fifth metacarpal bone (*case report 742*) 343
Intravenous gadopentetate dimeglumine in magnetic resonance imaging of synovial lesions, use of 215

Juxtacortical adamantinoma of humerus (simulating Ewing tumor) (*case report 727*) 205

Knee, prevalence and significance of cyst-like changes at the cruciate ligament attachments 365

Lateral approach for hip arthrography 239
Leiomyosarcoma, computed tomography appearance of bone metastases of 445
Leiomyosarcoma of great saphenous vein (*case report 747*) 399
Leukemia, acute lymphocytic (*case report 761*) 546
Ligament and tendon abnormalities,

magnetic resonance imaging of: Part I. Spine and upper extremities 1
Ligament and tendon abnormalities, magnetic resonance imaging of: Part II. Pelvis and lower extremities 79
Ligament, annular, of the radius, posttraumatic calcification of 149
Ligament, cruciate attachments in the knee prevalence and significance of cyst-like changes at 365
Limb replantation, radiological appearances following: a report of 5 cases 155
Lip service, more than just 305
Lipodystrophy, congenital, generalized, skeleton in: evaluation using whole-body radiographic surveys, magnetic resonance imaging and technetium-99m bone scintigraphy 381
Lipoma arborescens, synovial (*case report 745*) 393
Lipoma, spindle cell, causing marked bone erosion (*case report 751*) 414
Lower extremities and pelvis, magnetic resonance imaging of tendon and ligament abnormalities of 79
Lumbar spine, degenerative disc disease in: another cause for focally reduced activity on marrow scintigraphy 247
Lymphocytic leukemia, acute (*case report 761*) 546
Lymphoma, Burkitt's, of talus (*case report 755*) 474
Lymphoma, malignant large cell, of tibial epiphysis (*case report 730*) 260
Lymphoma, primary, of bone, large cell, B-phenotype, with articular involvement (*case report 764*) 559

Magnetic resonance images, signal intensity of normal odontoid process (dens) displayed on 519
Magnetic resonance imaging, contrast-enhanced fat saturation, for studying the pathophysiology of osteonecrosis of the hips 375
Magnetic resonance imaging of Achilles tendon xanthomas in familial hypercholesterolemia 453
Magnetic resonance imaging of amyloid myopathy 463
Magnetic resonance imaging of myositis ossificans: analysis of seven cases 503
Magnetic resonance imaging of nontraumatic shoulder instability in children 19
Magnetic resonance imaging of skeletal metastases from medulloblastoma 425
Magnetic resonance imaging of synovial lesions, use of intravenous gadopentetate dimeglumine in 215
Magnetic resonance imaging of tendon and ligament abnormalities: Part I. Spine and upper extremities 1
Magnetic resonance imaging of tendon and ligament abnormalities: Part II. Pelvis and lower extremities 79
Magnetic resonance imaging, sagittal T2-weighted, signs of patellar chondromalacia on 103
Magnetic resonance imaging, whole-body radiographic surveys and technetium-99m bone scintigraphy: skeleton in congenital, generalized lipodystrophy, evaluation using 381
Malignant epithelioid hemangioendothelioma of bone (*case report 759*) 538
